- Attached to minutes of meeting
- The buttresses are so far holding up to the recommendations provided by Danage for their product
- The trial EVA core needs to be changed out, the trial is done and this core is not suitable for the Club's purposes
- The club is still holding a number of new cores in stock of both Danage and PA
- Target five (5) is the original Chinese Buttress and has nearly come to the end of serviceable usage. Due to the configuration of its fabrication, the core can neither be turned nor replaced, and the whole buttress will need to be replaced.
- The Club still has plenty of JDV target faces in stock, both 122cm and 80cm. There will be a need to also purchase other more durable faces in preparation for shooting in inclement weather as the JDVs disintegrate in the rain.
